Mayor Stempel

My name is Lindsay Huddleston and I am working here in Oregon with the [Restore America's Parks Campaign](#) to work with Gladstone to pass a resolution to ensure that our national parks and monuments have the resources they need to stay open, safe and accessible for the millions of people that visit them here in Oregon and across the country every year.

As you know, Oregon's national parks and monuments--from Crater Lake, to Oregon Caves, to John Day Fossil Beds, to Lewis and Clark--are a significant draw for visitors. These natural and historic treasures generate significant economic activity for businesses and communities in close proximity to these sites, and throughout the state.

**According to the National Park Service (NPS), Crater Lake is responsible for over \$65 million in visitor spending in gateway communities; that spending, in turn, supports over 1,000 local jobs.**

Resources are required to keep these parks open and safe for visitors, but they are struggling to keep up with maintenance needs due to aging infrastructure, increased wear and tear from increased visitation, and inconsistent federal funding. NPS is facing an infrastructure maintenance crisis with over \$11 billion in deferred maintenance costs. **Oregon NPS assets alone are dealing with a \$105 million deferred maintenance backlog.**

For the longevity of the parks and the communities they benefit, this is an issue that must be addressed. Congress should prioritize the creation of a reliable, predictable stream of resources to address deferred maintenance needs in America's National Park System.

**As you will see in the attached list, cities and counties from around the country who recognize the important economic role national parks play in local economies have passed resolutions in support of addressing the deferred maintenance problem in our national parks. Here in Oregon so far Cave Junction, Grants Pass, Klamath Falls, Medford, Josephine County, Klamath County and more than a dozen others have passed resolutions in support. I hope Gladstone will consider doing the same.**

I have attached a resolution draft to this email that I hope can serve as a jumping off point for a possible resolution from your body. Feel free to make any changes you see necessary.

Please let me know if you have any questions. We are hoping a resolution might be possible in the coming weeks and are happy to do what it takes to help make that happen.

Thank you so much for your consideration and I look forward to hearing from you soon.

All the best,

# Restoring America's National Parks

## OREGON

Oregon enjoys the economic, recreational, and cultural benefits of the National Park System, which includes six park units in the state.

National park sites in Oregon are part of a system that encompasses 84 million acres across the country. Established by Congress in 1916, the National Park Service (NPS) manages and maintains more than 400 nationally significant sites in all 50 states and several territories. National parks are a mosaic of wild landscapes, historic and cultural sites, scenic byways, trails, military parks, and monuments that celebrate and commemorate remarkable people and America's heritage.

Unfortunately, more than 100 years after its creation, NPS is struggling to maintain many of its facilities. The agency currently faces a deferred maintenance backlog that is estimated to be \$11.6 billion based on FY2017 data.

### Why is there Deferred Maintenance?

- Aging infrastructure: many park facilities and systems are 50-70 years old and need updating
- Record visitation—approximately 331 million visitors in 2017—causes wear and tear on resources
- Unreliable funding for deferred maintenance

### What is Deferred Maintenance?

Deferred maintenance is work that is not completed at required intervals to ensure acceptable facility conditions. If work is delayed for more than a year, it is typically considered deferred. Examples of repairs include:

- Crumbling roads and bridges;
- Unsound buildings, including historic structures;
- Outdated wastewater and electrical systems;
- Neglected military sites; and
- Deteriorating monuments and memorials.

### National Parks in Oregon

In 2017, over 1 million visitors enjoyed national parks in Oregon. From Oregon Caves to Fort Vancouver, Oregon saw \$91.6 million spent in gateway communities. That spending supported 1,484 jobs and added a cumulative benefit of \$130.6 million to the state economy – money that helps businesses, schools, and families.

Despite the importance of national parks to Oregon's economy, they need more than \$116 million in infrastructure repairs. To keep national parks in Oregon strong and vibrant, and to capture the benefits they provide to the state, restoration must be a priority.

### NPS Deferred Maintenance in Oregon - FY2017

## Why Address Deferred Maintenance?

- **Preservation:** We need to ensure care of our nation's historic and cultural resources.
- **Access:** Without working roads and trails, visitors can't enjoy all our park resources.
- **Revenue:** Local communities are dependent on park-generated tourism dollars.
- **Kids:** Maintaining our national parks is a responsibility Congress owes to future generations.
- **Safety:** Aging infrastructure and building code issues need to be addressed so visitors are provided a safe experience.
- **Cost Savings:** Repairing and updating park facilities can provide significant cost savings to tax payers.

## Proven Economic Boosters

- Parks are a top travel destination in the U.S.
- There were an estimated 331 million visits to the national parks in 2017.
- In 2017, park visitors spent an estimated \$18.2 billion in nearby communities and a collective \$35.8 billion boost to the national economy. That spending supported 306,000 jobs.

Photo (above): John Day Fossil Beds National Monument. (NPS Photo).

From sites that are culturally important to Native American tribes or that honor those who served in our military, to parks that commemorate painful aspects of the Civil War, Japanese internment, or the Civil Rights movement, our National Park System documents our nation's diverse and evolving history.

Congress has a responsibility to ensure the NPS has the resources needed to maintain park infrastructure, so future generations can enjoy and learn from our national treasures.

## Solutions

To address deferred maintenance at NPS sites across the country, Congress should:

- Ensure that infrastructure initiatives include provisions to address park maintenance;
- Provide dedicated annual federal funding for national park repairs;
- Enact innovative policy reforms to ensure that deferred maintenance does not escalate;
- Provide more highway funding for NPS maintenance needs; and
- Create more opportunities for public-private collaboration and donations to help restore park infrastructure.

## You Can Help

Ask your federal representatives to support dedicated federal funding and an infrastructure proposal that addresses the deferred maintenance needs within the National Park System.

Dear Chair Murkowski, Chair Calvert, Ranking Member Udall, and Ranking Member McCollum:

2017 marks the start of the second century for the National Park Service (NPS), which oversees more than 400 natural and cultural areas in all 50 states and most U.S. territories. NPS faces a growing challenge in adequately maintaining its sites to ensure that visitors can experience the parks' natural beauty and learn about our nation's history. After decades of underfunding, NPS has an infrastructure repair backlog estimated at \$11.3 billion (FY 2016). This includes crucial repairs to aging historical structures and thousands of miles of roads and trails, bridges, tunnels, sewers, drainage, and other vital infrastructure.

Writer and historian Wallace Stegner said that national parks are "the best idea we ever had. Absolutely American, absolutely democratic, they reflect us at our best rather than our worst." As companies, organizations, and associations, we support addressing the infrastructure repair backlog throughout these parks.

To address the backlog and put our national parks on sound financial footing for the future, we must do the following

- Create a guaranteed federal fund that will chip away at the estimated \$11.9 billion backlog over time.
- Implement policy reforms, such as entry and vendor fees, that will help to prevent repair backlog from accruing to begin with.
- Provide more highway funding for NPS maintenance needs.
- Create more opportunities for public-private collaboration and donations to help restore park infrastructure.

From the Grand Canyon and the Great Smoky Mountains, to the Statue of Liberty to battlefields like Gettysburg, the National Park System serves as a living testament to our citizens' valor, our hardships, our victories, and our traditions as Americans. We need to ensure that our children and grandchildren are able to see and appreciate our rich history in these places, and to learn more about the people and lands that have shaped us as a nation.

We urge you to work with us to protect our national parks well into the future and, in particular, to support guaranteed funding for infrastructure repair needs.

Sincerely,
